Braille Beads: APH Starter Kit

Beading is fun, but it can also be educational! Many concepts can be practiced such as sorting, counting, organizing, planning, and fine motor skills. This kit offers beads with a braille letter on one side and the print letter on the other in addition to a variety of colored pony beads. Also included are an instruction book and an assortment of wire, cord, and fobs to create many fun and colorful accessories. (NOTE: Choking Hazard: small parts)

Giant Textured Beads

If the beads in the kit described above are too small for someone, he/she may enjoy organizing and stringing the much larger textured beads. The beads come in 3 shapes and colors with different textures and a durable bead stringer.

Giant Textured Beads with Pattern Matching Cards

Increase the skill and concept development in a bead stringing activity by incorporating the pattern matching and sorting features offered in this kit.

Large Abacus

Great manipulative for someone who might like the feel and movement of larger beads, but requires the beads presented in a more secure way. Each textured bead slides along an elastic in each row but cannot be removed.
