About

This day-long collaborative event provides a multi-tracked program addressing needs of individuals, family members, support staff at day and residential programs, nurses, eye care providers, administrators, advocates and all concerned with the vision and vision loss needs of individuals with intellectual disability. Resources are also shared at the exhibit area. The “Focus” Conference is organized by DDS and MCB together with Perkins School for the Blind, NECO, Carroll Center for the Blind and Shriver Clinical Services. Additional sponsors provide funding support for the event each year.

Thank You!
