- OR -
Feb. 12, 2025, 4:00pm - 5:00pm

A Person-Centered View of Dementia Friends

Dementia Friends is a global public awareness program that helps every member of a community learn five key messages about how dementia affects people, and how each person can make a difference through respect, patience, and communication skills. Through the combination of person-centered and relationship centered strategies, this session has been tailored to include a focus on the connections between visual impairment, I/DD and dementia with updates of the dementia landscape.

Host: Lisa DiBonaventura, MA, COMS
