

MCPHS
UNIVERSITY

EYE & VISION
CENTER

Vision clinic for persons with developmental disabilities.

We believe all people with a disability deserve a thorough and comprehensive eye exam to maximize vision and promote well being.

At the Eye and Vision Center at the MCPHS University School of Optometry, knowledgeable, highly skilled optometrists work together with dedicated student interns to provide the best care available.

All appointments are 90 minutes. Longer appointments allow us to obtain a complete set of measurements at a comfortable pace for every individual.

- Exam rooms are easily accessible for each persons needs.
- No age limit. We welcome infants to the elderly.
- We provide complete vision exams to patients who are non-verbal.
- After your visit, you will be mailed a comprehensive exam letter explaining the exam findings, including lists of recommendations and accommodations to improve everyday visual function.

1

Call 508-373-5830

Call and make an appointment.
